

2.7mm Locking Plate & Screw System

2.7mm LOCKING PLATE & SCREW SYSTEM

The One Surgical **2.7mm Locking Plate & Screw System** offers a variety of fixation and configuration options for multiple reconstruction indications. It is intended for use in the small bones of the hand, wrist, and foot. The 1.5 or 2.0mm profile plates are constructed of pure titanium (Ti) and are used in conjunction with solid locking titanium alloy (Ti-6AL-4V) screws.
